## CHILL WINDS

Are the dread of those whose lungs are "weak." Some fortunate people can follow the summer as it goes southward, and escape the cold blasts of winter and the chill airs of spring. But for the majority of people this is impossible. Family cares and business obligations hold them fast.

"Weak" lungs are made strong by the use of Dr. Pierce's Golden Medical Discovery. It cures the obstinate cough, heals the inflamed tissues, stops the hemorrhage, and restores the lost flesh to the emaciated body.

"I am a railroad agent," writes I. H. Staples, Esq., of Bixby, Okla., "and four years ago my work keeping me in a warm room and staying out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to reach my case and advised me to go to a higher air, but fortunately found a friend who induced me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery' and by the time I had taken the first bottle I was better, and the last time I went to the doctor my cough was entirely gone. I have found no remedy for seeking another climate."

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious medicines, will offer the customer a substitute as being "just as good" as the "Discovery."

You get the People's Common Sense Medical Adviser, the best medical work ever published, *free* by sending stamps, to pay expense of mailing only. Send 21 one-cent stamps for book in paper covers, or 31 stamps for cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

## THE SAME OLD STORY.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Craig & Hocker, Druggists.

A fond mother sent her little son to Sunday school and when he returned she asked: "Were there many there?" "A good many," replied the boy, "but Jesus wasn't there." "How do you know?" "Because," said the boy, "they sang, 'Jesus is calling today.'"

Frank Strickland, of Atlanta, poet, author and musician, says in an interview in the Journal of that city: "I am as thankful to God that He made me blind as I am thankful for the air I breathe or the water I drink."

Ed. J. L. Davis, the much abused preacher, has just closed a two weeks' meeting at the Purcell school house with 40 additions, 10 by baptism and 21 by letter and from other churches—Kentucky Colonel.

Northern friends of the Kentucky Wesleyan College have offered to give \$75,000 to the endowment. If \$100,000 can be raised by the Kentucky friends in the next three years. This offer has already met with an encouraging response.

By the will of the late Mrs. Sarah Cronley, of Lexington, \$200 each is bequeathed to the Episcopal churches of Georgetown, Versailles and Beattyville, and \$100 each to the churches of Danville and Harrodsburg. The estate, valued at about \$60,000, is given largely to work of the Episcopal church.

The wife and daughter of Capt. T. W. Robinson, of the Seacoast Artillery, together with Mrs. Horn's sister, Miss Alice McMahon, were drowned by the capsizing of a sailboat in Sandy Hook Bay, N. Y. The capsizing of a boat in the Detroit river resulted in the drowning of four boys.

Cut this out and take it to Craig & Hocker's Drug Store and get a box of Chamberlain's Stomach & Liver Tablets. The best physiologist.

The shortest talk of the lot was one of a column by Senator Hawley.

The "Is it hot enough for you?" man is very much in evidence just now.

## TO THE DEMOCRACY OF THE 13th JUDICIAL DISTRICT.

I am a candidate for the democratic nomination for the judgeship of the 13th judicial district of Kentucky, composed of the counties of Boyle, Garrard, Lincoln and Mercer.

M. C. SAUFLEY.

THE printing business in the United States is of vast and growing importance. The census bureau has issued its report on printing and publishing in the United States for the census year 1900, showing a capital of \$292,515,072 invested in the 22,312 establishments reporting for the industry. This sum represents only the live capital utilized and the value of the land, building, tools, machinery and implements. The value of the products of the industry is returned at \$347,055,050, to produce which an outlay of \$36,000,719 for salaries of officials, clerks, etc., \$84,240,889 for wages, \$55,807,529 for miscellaneous expenses and \$86,550,290 for materials used, mill supplies, freight and fuel. The total number of wage earners in the industry has increased only 10 per cent. since 1890, but the value of products increased 24 per cent. Of the total value of products advertising formed 43 per cent., subscriptions and sales 38 per cent., and book and job printing, including miscellaneous products, 21 per cent. The total circulation per issue of dailies was enough to supply one for every five inhabitants, and weeklies and monthlies, one to every two inhabitants.

THE Chicago Chronicle, which keeps tab on Fourth of July accidents, says of them: "With many cities to hear from the total dead outside of Chicago is 14 and the injured 1,524, while the loss of property by fire reached \$67,460. Including Chicago the list is 17 dead and 1,524 injured. The death list last year was 19, and the injured 1,611. Many of the injured died later, as the wounds caused by gunpowder frequently do not become serious until some days after they are inflicted. The toy pistol and the cannon cracker, as usual, were responsible for the greater part of the injuries, but every variety of firework had its share in the deadly work." Some people have a foolish way of celebrating the natal day of independence, and as a result almost as many people are killed and wounded yearly as there were in the war that gained it.

WE are with the Buffalo Times when it says that there is plenty of splendid material in the democratic party from which to make selection, but there is no need for haste in the matter. It is practically settled that the republican candidate, barring death and other unforeseen disability, will be either Hanna or Roosevelt; there is no need of worrying over the identity of his opponent at this juncture. All the democratic party need do this fall is to get the various States into such condition that their candidate of 1904, who ever he may be, will receive the full and undivided vote of the party. In that way and in no other will his election be assured.

DURING the fiscal year which has just closed, the receipts of the government have exceeded the expenditures, large as they have been, by nearly \$50,000,000. This is due in part to a decrease of \$37,000,000 in the expenditures. Those on account of the army have been cut down materially. A portion of the credit for the surplus is due to the prosperity of the country, which makes the taxes so productive. The last Congress took off part of the war taxes and guessed that the revenues would be decreased about \$40,000,000. They fell off only about \$20,000,000.

THE president's speech at Pittsburg is said to have sounded the keynote to the trust control theme that will predominate in his speeches during the summer. Representative Littlefield has been asked to prepare a bill for the regulation and control of the trusts, to be submitted to Congress with the endorsement of Mr. Roosevelt.

CONGRESS sought to put a premium on deserters as follows: By the passage of a bill on the last day of the recent session of Congress the sum of \$3,000,000 will be distributed in North Carolina and Tennessee as pensions to Confederate veterans who deserted their army to fight with the Union forces.

THIS is indeed a great country. While the mercury registered anywhere from 90 to 100 Saturday, snow flakes were falling in Colorado and Wyoming.

THE Georgia democrats also refused to mention the Kansas City platform at their convention. It seems to be the determination of democrats to forget those things which are behind and reaching forth unto those things which are before, press toward the mark for the prize.

THE republicans are making life miserable for J. A. Craft, who joined their ranks not long since. Ed Parker went after him good and strong and now Col. Dave Colson in a letter to the civil service commission prefers charges against him.

THE bill providing for the election of United States Senators by the people, though passed unanimously by the house, is neglected by the Senate. The man who opposes it in that body should be marked and never be allowed to return to it.

WHEN union men stop a funeral procession and make non-union drivers dismount, as at San Francisco yesterday, it looks like carrying the union business a little too far and making it nauseating.

ELEVEN murders and six suicides in Kansas City in 40 days is a record that the great Western City should be ashamed of. Stanford hasn't had that many in 40 years.

CHARLIE WHEELER has relieved the suspense of people in general by stating that he is not a candidate for governor.

### POLITICAL.

J. H. McConnell was nominated for Congress by the Peoples' party in the First district.

E. T. Lillard was re-elected warden at Frankfort. Henry Hagerman was elected warden at Eddyville.

The race between Rhea and Helm for the democratic nomination for Congress in the Third district is waxing warm. Helm is developing wonderful strength.

Near Lot, Whitley county, during an electrical storm, Cleo Perkins and two mules were killed. Millard Perkins was knocked off one of the mules into a creek, but was not killed.

Miss Dottie McClure, daughter of Mr. and Mrs. Samuel McClure, died Saturday of consumption and was buried Sunday in the family burying ground near town. Miss Dottie, in health, was one of the handsomest girls in the county.—Kenucky Colonel.

William H. Boss shot and killed his brother-in-law, Elijah Sargent, on a farm near Barroodburg. Boss claims that Sargent was drunk and was abusive to his sister and that in a fight which followed they clinched, Sargent having a Winchester, whereupon he shot Sargent four times.

A Frankfort paper announces John W. Vreeland as a candidate for auditor.

Colson's friends are claiming Clinton, Wayne, Russell, Adair and Cumberland in his race for Congress.

### IN NEIGHBORING COUNTIES.

Fulton Motherly, aged 19, and Miss Addie Lamb, age 14, were married in Boyle.

Two little sons of Mrs. Annie Lee, of Whitley county, were drowned during a cloudburst.

Joe H. Johnston, a prominent business man of Lebanon, is dead of paralysis of the brain.

Mrs. Charles Riddell, of Richmond, fell and broke her collar bone while visiting in Lexington.

William Underwood was shot and probably fatally wounded by a companion at Pleasantville, Whitley county.

Johnnie Brewer, of Mercer, died of lockjaw as the result of an injury to his upper lip received, it is said, in diving.

Gov. Beckham appointed E. W. Lyon, of Mercer county, as a commissioner of the Kentucky Home for Confederate soldiers.

Howard Camitz, the Hustonville pitcher, has been released by Greenville, Miss., and has signed with Shreveport, La.

Charle Lloyd was shot and killed instantly at Redash, Whitley county. Lloyd had married a young girl whom his slayer had loved, it is said.

R. J. Breckinridge Camp of Confederate Veterans has thus far donated about \$100 to be appropriated toward the new Confederate Home—Advocate.

### THIS AND THAT.

There were six deaths from heat at Pittsburg yesterday.

Alex. Yost, chief of police of Catlettsburg, died of sunstroke.

A heavy frost which formed ice visited San Luis Valley in Colorado.

Chief Justice Marshall J. Williams, of the Ohio supreme court, is dead.

An eel has two separate hearts. One beats 60 and the other 100 times a minute.

Between eight and nine thousand freight handlers at Chicago went on a strike.

The town of White Horse, in Oklahoma, was destroyed by fire. Loss, \$100,000.

W. Woolsey, of Junction City, purchased 4,500 dozen eggs last week at 33 cents. Sam Pope threshed 16 acres of wheat last week which averaged 33 bushels to the acre.—Advocate.

Tommy Hall celebrated the Fourth of July at its Wigwam in New York City with speeches by Bourke Cockran and Justice O'Gorman. Letters of regret were read from Senator Vest, W. J. Bryan and David B. Hill. At the celebration in Philadelphia Gen. Nelson A. Miles delivered an address.

Arrangements have been completed whereby only the most pressing official calls shall disturb the president's vacation at Oyster Bay. Delegates will not be received by Mr. Roosevelt, and much business coming to the chief executive will be transacted through the departments in Washington.

The chief obstacle in the way of the Vatican's accepting Gov. Taft's proposition regarding the friar lands in the Philippines is the withdrawal of the friars. The religious orders are especially powerful in the Sacred College, and the Vatican would not object if the expulsion were carried out and it had to be recognized only as an accomplished fact. It is believed that the Vatican would welcome a show of force.

Gov. Jeff Davis, of Arkansas, has written a letter to President Roosevelt protesting against the appointment of Senator James K. Jones as a member of the canal commission. Gov. Davis says that Senator Jones has put himself beyond the party line, and that the appointment will not be given as to a democrat without the protest of the democracy of the State. If Senator Jones is appointed as a republican, pure and simple, no objection will be raised, he says.

### HOW THE CHINESE GET RAIN

Peculiar Practices in Vogue in the Celestial Kingdom.

It is one of the peculiarities of the Chinese that, while they have developed elaborate philosophies, none of them has led to any confidence in the uniformity of nature. Neither the people nor their rulers have any fixed opinion as to the causes of rainfall. The plan in some provinces when the need of rain is felt is to borrow a god from a neighboring district and petition him for the desired rain. If his answer is satisfactory, he is returned to his home with every mark of honor; otherwise he may be put out in the sun as a hint to wake up and do his duty. A bunch of willow is usually thrust into his hand, as willow is sensitive to moisture.

Another plan in extensive use is the lighting of special temples in which are wells containing several iron tablets. When there is a scarcity of rain, messenger starts out with a tablet marked with the date of the journey and the name of the district making the petition. Arriving at another city, he pays a sum of money and is allowed to draw a new tablet from the well, throwing in his own by way of exchange. On the return journey he is supposed to eat only bran and travel at top speed day and night. Sometimes he passes through districts as greatly in need of rain as his own. Then the people in these places waylay him and, temporarily borrowing his tablet, get the rain intended for another place.

Prayers are usually made in the fifth and sixth months when the rainfall is always due, and a limit of ten days is set for their effective operation. Under such conditions rain usually falls during the prescribed time. When the prayers are in progress, the umbrella, among other objects, comes under the ban. In some provinces foreigners have been molested for carrying this harmless article at that time.

### DEATH BY ARSENIC.

The Way This Poison Acts Upon the Human System.

When a single dose of arsenic in sufficient quantity to be felt has been taken, colicky pains, bowel disorder and perhaps nausea result. In the course of an hour after a poisonous dose has been taken an intense burning pain is felt in the esophagus and stomach. This spreads to the entire anterior portion of the lower part of the trunk. A sense of constriction at the throat and an acrid, metallic taste accompany the pain. Then vomiting and relaxation of the bowels begin. As the case progresses the symptoms increase in intensity. Then comes a thirst that water will not slake, although it apparently increases the stomach disturbance. The victim groans and writhes.

Now he implores the doctor to save him. Then he begs to be killed and put out of pain. The extremities become icy. The pulse is small, feeble and frequent, and the breathing is labored, embarrassed and painful because of abdominal tenderness. The surface of the body becomes dark and of that bluish color that medical men call cyanosis. Violent cramps add their torture, exhaustion becomes collapse, convulsions or coma ensues, and death ends the agony. This torture lasts sometimes from five to twenty hours.

In some cases these symptoms occur, but in a modified form, and the doctor will apparently get the better of the disease. The remission will be but for a day or two. Then the abdomen will swell, and icy coldness will pervade the frame. Shivering will become pronounced, trembling, then cramps, convulsions and death.
